

Letter Flap Module (BE 611-4/1-0)

Product Details

Letter-throw flaps module made of extruded aluminum profile, plastic coated or painted.

The thermal separation by plastic parts ensure a good thermal insulation. The pass-through opening behind the flap can be adjusted in the triple height of the maximum opening of 40.5 mm to 20 mm, and if necessary the opening can be completely closed (eg during the holiday season.). Flap self-closing, free of torsion, low-noise operation due to sealing lip. Through union and tamper proof according to DIN EN 13724. On BKV 611-4 / ... or wall recess for screw mounting. Label area under the flap.
